

THEFT ALERT!

11/28/2020

A long time Winchester collector (Advertising, lures, etc.) had his collection stolen out of a climate-controlled storage unit in Nashville, TN in mid-November 2020. The collection included every Winchester lure (spinners and wobbler, 3 and 5 hook in every color), a number of Edwards made Winchester bamboo rods, and every reel Winchester ever catalogued. Some of the items were original boxed. The rods are very rare and some are the only known examples. An inventory of what was stolen is not yet available but will be posted when available. Be on the lookout for Winchester lures, rods, and reels suddenly for sale, especially out of Tennessee. Any information should be reported to the Nashville police department.
